being, need for sense of, 45, 48–49, 52–53, 55
believing, need for sense of, 45–46, 48–53, 55. *See also* spirituality
belonging, need for sense of, 45, 48–50, 52–53, 55
benevolence, need for sense of, 46, 48–49, 52–53, 55
biology and adolescent development, 27, 28
borderline personality disorder, 76–77. *See also* emotionally dysregulated personality disorder
Buddhism, 54

C
change in adolescence
  personality functioning and, 66
  theory of, 21–24
chess
  literature on psychotherapeutic use of, 187–189
  as way of improving object relationships in narcissistic adolescents, 187, 196–198
    case material, 191–195, 197–198
    clinical method, 190–191
cognition. *See also specific topics*
  and competence, 207–208
cognitive development, 69–70
competence (capacity). *See also* informed consent and competence of minors
  developmental and psychological, 207–209
conflicts, emotional, 66–69

context of experience and action, 33
crawling, 35
culture, ethnicity, and identity, 73–74

D
death of parent. *See* mourning
defensive styles, gender differences in, 71
denial. *See also* pregnancy, denial of
  defined, 223
depression, 139
  treatment, 139–140. *See also* interpersonal psychotherapy
development, adolescent. *See also specific topics*
  dynamic systems view of, 30–33
developmental disturbance, model of, 67
developmental phases of adolescence, Blos's, 22–23
dissociative state
  defined, 223
  temporary insanity and, 227–228
dynamic systems, 27–30, 41
  view of adolescence, 33–37
  view of adolescent psychotherapy, 37–40
  view of development, 30–33

E
Eastern religions, 54
eating disorders, clinical material, 6–8, 11
ego development, pathways of, 79–80
ego psychological model of adolescence, 19–20, 22–27, 67
emotional processes and development, 70–71. *See also specific topics*
emotionally dysregulated personality disorder, 88

F
families. *See also* treatment, integrated
  single-parent, 156–157
fantasies, 125–126
fears, 66–69
filicide, 226–227
Five Factor Model of Personality (FFM), 63

G
game play. *See* chess
grandiosity of toddlers, so-called, 35
grief. *See* mourning

H
histrionic personality disorder, 89
hysterical cognitive style, 223–224

I
identity
  culture, ethnicity, and, 73–74
identity disturbance, 73, 170–173
  clinical material, 170, 173–184
identity formation, 72
ideology. *See* believing; religion
individuation, 14, 72. *See also* "adolescent turmoil," attachment-individuation and; separation-individuation
  "finding one's voice," 6
    clinical material, 6–14
informed consent and competence of minors, 214–215
  in health care decisions, 203–204, 214–215
    case material, 204, 212–213
    emotional and psychiatric factors and, 210–211
    health/medical status and, 209
    problem presentation, 209–210
    psychodynamic and social influences and, 211–212
  legal approaches to, 205–206
insecure attachment, 82
  clinical material, 6, 8–10
intelligence and competence, 207
interpersonal disputes, 152–153
interpersonal psychotherapy for depressed adolescents (IPT-A), 140, 143–144
  antidepressants as adjunct, 149

contrasted with IPT for adults, 142
increasing self-monitoring skills, 157–158
interpersonal problem areas, 150
grief, 150–152
interpersonal deficits, 155–156
interpersonal disputes, 152–153
role transitions, 153–155
single-parent families, 156–157
patient selection, 143
phases and course of treatment, 145–149
psychoeducational component, 141–142
rationale for development of, 140–142
research on, 158–162
therapeutic goals/tasks, 143–150
interpersonal psychotherapy (IPT), 140, 142
adaptations of adult version, 142

J
Judaism, 53, 54

L
locomotion skills, development of, 35
loss. *See* mourning

M
magical thinking, 224–225
moods, 70–71
moral development, and competence, 208
motivations, 66–69
mourning, adolescent, 101–102, 112–115
clinical material, 103–112, 115
interpersonal therapy and, 150–152
literature on, 102–103

N
narcissistic personality disorder, 88–89
needs, adolescent, 45–53, 55
neonaticide, 226–227, 233–234
in the courtroom, 232–234
evolutionary considerations and, 229–230
as "going against nature," 230–232
magical thinking and, 224

O
object relations and object representations, 71–75
object relations model of adolescence, 20
oppositional dysphoric personality style, 87

P
parent, death of. *See* mourning
parental projection onto adolescents, 181
personality, adolescent, 62
assessment. *See specific assessment instruments*
conflict *vs.* continuity models of, 64–66
existence of, 62–64
personality characteristics, Q-factor analysis/Q-sort of, 86–90
personality disorders (PDs) and pathology, 61–62, 76–79
classification, 83–90
based on Q-factor analysis/Q-sort, 86–90
DSM, 77–79
personality functioning, domains of, 66
play. *See* chess
pregnancy, denial of, 233
by girl's mother also, 226
psychodynamics and types of, 219–226, 228–229
projection, 181
psychoanalytic approaches to adolescence, 19–22, 34, 35, 67–68
psychoanalytic treatment. *See* psychotherapy, psychoanalytic
psychopathology. *See* personality disorders; *specific topics*
